ProAccurate® Quick-Read™ Thin Tip Thermometer

-40° to +450°F/-40 to +230°C

Meeting the needs of today's commercial kitchens, Component Design Northwest (CDN) introduces the ProAccurate® Quick-Read™ Thin Tip Thermometer (DTT450). A super-accurate 1.5 mm slim tip measures the internal temperature of food with minimal impact, and a recalibration feature ensures the highest accuracy over time.

Like all thermometers under CDN's exclusive Quick-Read™ banner, it provides accurate temperature readings in just 6 seconds. Its wide temperature range of -40 to +450°F/-40 to +230°C gives it the versatility to measure the temperature of food in the freezer, in the oven, or on the stove. Small enough to fit inside a pocket, it features a 304 stainless steel stem and ABS plastic handle and sheath for the ultimate in durability and performance.
